

## **BSC Traditional Archery Championship**

Calling all traditional archers,

It's coming up on the time for the 2010 Bowhunters of South Carolina Traditional Championship. The dates are February 19-21. As in years past it will be in the Rocks Pond Campground in Eutawville SC. The 19<sup>th</sup> will only feature a night "coon" shoot, soon as it gets dark. 50% payback.

The 20<sup>th</sup> and 21<sup>st</sup> will be a 40 target 3-D course set up on 2 ranges. For those participating in the BSC Trad shooting circuit, this will determine the circuit champion, top 3 scores plus the 40 target round. No binoculars on the range. There will be a camp meal served Saturday night. Vendors can set up free of charge.

Special novelty shoots will take place Saturday and Sunday. Saturday night will be another "coon" shoot. Times for the Canoe Shoot will be announced on Saturday and Sunday mornings. This was enjoyed by many last year. We have lots of water this year. Saw blade and card shoots, also the long distance shot and toughman round.

Recurves will be broken in to 2 classes as before, recurves shot off the shelf and those that have some type of added rest. Those shooting a rest may use up to a 12" stabilizer. All bows must be shot using finger release and the index finger must touch the arrow. No sights. No arrow restrictions except self bows must shoot wood or other plant fibers arrows.

Bring a friend; if you don't have fun, it's your own fault.
